The Past is Present: Putting Family History in Context

Family history is more than dates, departures and deaths. We're interested in interpreting what these events mean, and connecting the dots to discover the unique stories that explain our place in the world. The basic facts are the foundations of any well-crafted family history, but there is so much more to the story. If you're exploring your family's stories, whether its from lockdown or further afield, be sure to take advantage of our extensive resources to help flesh out their history, put it in context and bring it to life.
