1. PURPOSE

The purpose of this Policy is to outline Goondiwindi Regional Council's (Council) position in relation to public art and commemorative items on Goondiwindi Regional Council controlled land.

2. VISION

Council recognises that members of the community may wish to pay tribute to or acknowledge a person, event or organisation through the installation of a commemorative item, or to acknowledge arts and culture through public art. To achieve this vision, Council will strive to increase public art and commemorative items in public places so that arts and culture can be enjoyed as an everyday experience.

3. POLICY STATEMENT

The objectives of this Policy are to:

- stimulate and encourage artistic endeavour and art work in public areas;
- facilitate the provision of public attractions and enhance public areas for the enjoyment of local residents and visitors;
- provide an opportunity for the community to pay tribute to or acknowledge persons, events or organisation; and
- guide, regulate (and control where necessary) public art activity and commemorative items to ensure desired outcomes are achieved.

4. SCOPE

This policy applies to the installation of public art or commemorative items on Council controlled land.

This policy does not apply to:

- temporary or roadside memorials;
- spreading of ashes; or
- any activity on privately owned infrastructure or land, or state-controlled land.

5. PUBLIC ART

5.1. What Is Public Art

The term, 'public art', has attracted a myriad of interpretations – from commemorative monuments and stand-alone objects to community art projects, functional elements, fountains and art using new technologies. Public art is an ever-changing genre.

Public art is visible and accessible to the public. It may be permanently incorporated within the fabric, design, or fixtures of a building or place, or be a temporary project such as art installations and events. Public art can be situated within the public areas of private development, as well as in publicly owned spaces. It can be found in parks, civic spaces, the public areas of interior fit-outs, on building facades, pavements and in outdoor environments.

Council strongly encourages engagement of local art advisory groups in development of public art on both the private and public land.

5.2. Benefits of Public Art

Council recognises that public art can contribute significantly to the creation of local industry and a sense of place, and enhances the aesthetic value of the built and natural environment.

The benefits of public art to the community include fostering civic pride and confidence, and contributing to community cohesion, social health and wellbeing.

5.3. Requirements for Public Artwork

Public artwork must:

- be consistent with planning and heritage policies or principles;
- conform to any master plan or guidelines for a precinct or location in which the work is to be sited;
- be suitable for the chosen site and meet any engineering, safety, risk, traffic or other technical specifications and be assessed as appropriate;
- meet the specific requirements set out in the briefing material prepared for the project;
- have minimal on-going costs to ratepayers; and
- create, where possible and appropriate, opportunities for local business, manufacturers and local community groups to be involved in the installation and/or fabrication process.

5.4. Donations and Gifts

Council may be offered donations and gifts of public artwork by entities wishing to make a cultural contribution to the region. Whilst Council is grateful for such offers, it is not obliged to accept the artworks since they may carry with them expensive responsibility for installation, maintenance and conservation.

5.5. Community Art Projects not on Council land

Council welcomes community led initiatives incorporating public art projects. Whilst Council appreciates the community pride and efforts to achieve these projects, these art works are not the responsibility of Council (even if Council has contributed some funds towards the artwork), unless prior written agreement is given.

The following general principles apply to community groups undertaking community public art projects.

- all art must have written consent of the property owner, prior to the commencement of any artwork;
- Check if it requires Council planning or building permits or other permissions;
- the landowner is likely legally responsible for the artwork, therefore on-going costs and decommissioning of art should be clearly outlined in advance; and
- Council may financially support public art initiatives through the Regional Art Development Fund (RADF), and Community Grants and Donations program, or other funding opportunities as they arise however, this does not constitute ownership in any way.

5.6. Installation

Artists will be responsible for installation of the art works and in the case of ephemeral (temporary) art works, they will be responsible for removal and clean up.

All artists and associated project makers on public property must demonstrate capacity and willingness to follow workplace health and safety practices.

Appropriate insurance must be held by all artists and art coordinators.

5.7. Public Art Interpretation Signs

Public art interpretation signage shall be considered inclusive of the artwork and will be assessed in conjunction with the public art application.

5.8. Maintenance

Maintenance of works commissioned by Council will be considered at the outset and projects will specify approximate lifespan for any public artwork.

Artworks will require high quality materials and consideration of durability and suitability for the public realm.

The commissioned artist, an appropriate professional or someone with clear understanding and training in the required maintenance will undertake and document the maintenance of public artworks.

All other maintenance requirements shall be in accordance with Item 8.
